Teaching youth the blueprint
for strong future families

**Relationships
Under Construction**
Teaching youth the blueprint
for strong future families

"Relationships Under Construction is the best sex education curriculum I have reviewed in years! It starts early and includes parents. RUC should be taught in every school, church, and youth organization across the country. This dynamic curriculum gets incredible results when presented by passionate teachers, parents and youth leaders."

Saving the lives of youth!
& SAVING TAXPAYERS MONEY!

What We Do

RUC teaches risk avoidance to unhealthy behaviors including alcohol, drugs, tobacco, violence, bullying, gambling, and trafficking. RUC encourages optimal health for our youth including the opportunity to reach their full potential. Our program addresses character development, goal setting, decision making, and how to recognize healthy versus unhealthy relationships, and dating violence while exploring the issues of fatherhood, motherhood and healthy family formation.

"This is absolutely the best way to help students realize the many consequences of pre-marital sexual activity. The students respond well to the interactive, non-threatening classroom involvement and to the caring concern of the presenters. They also respect the factual information presented as truths—not propaganda."
 High School Teacher - Ohio

"This class helped me because I'm still a virgin but my boyfriend who is 3 years older than me has had sex with 3 other girls. I knew he expected it from me but with this class I was able to tell him my boundaries and that we weren't having sex. He may be mad, but whatever :)"
 7th Grade Female

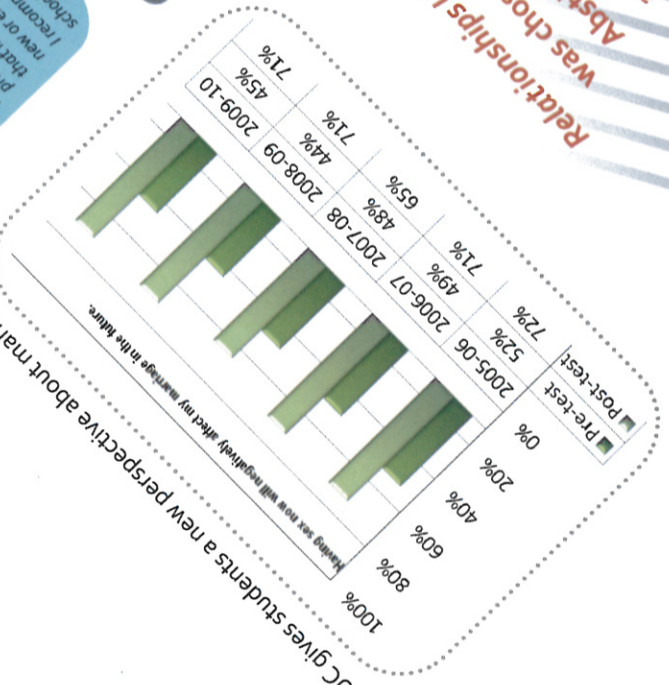

Who We Are

Relationships Under Construction (RUC) is a relationship and marriage education program that serves students ages 12-18 and the adults who influence them in 32 Ohio counties. RUC has served over 305,000 middle and high school students since 2002 with five classroom sessions of programming each year. The return on investment report shows 15% of those we serve who are considering sexual activity or are currently sexually active change their minds and decide to wait. The return on investment report projects a savings of over 128 million dollars (\$128,147,040.00). This means for every student we serve, the return on investment is 20 to one annually and 180 to one in lifetime taxpayer savings. RUC is a sexual risk avoidance curriculum. Consequences of early sexual activity including STI/STDs, teen pregnancies and emotional bonding, can negatively impact future relations. RUC helps teens and parents understand why avoiding these risks is so important.

RUC gives students a new perspective about marriage ...

"Relationships Under Construction is a well-designed curriculum for 6th-12th grades with a proven track record of statistically significant improvement in findings, making it a practical and accurate curriculum that is practical and easy to use for the new or experienced teacher. I recommend it for use in middle and high schools everywhere."
